GRAY HAIR TELLS TALES—TINT IT!

Gray hair is a little tale. Don't endure it until you are really old. If at forty you still feel young then take the trouble to look young. For to look and feel young is to be young. It is just as easy to keep your hair young and beautiful as to retain your youthful interest in life and people. Tint the gray, faded, streaked strands with "Brownstone," as thousands of women have done.

"Brownstone is My Best Friend." This wonderful preparation does not rub or wash off. If you want a delightful surprise, just brush or comb a little "Brownstone" through your gray, streaked, or bleached hair and see it change like magic to gold, silver, or deep rich brown, or black, or any shade desired—the exact color to set off your complexion.

Absolutely Harmless. "Brownstone" is odorless, greaseless, and positively non-injurious. Guaranteed to contain no lead, sulphur, silver, mercury, zinc, antimony, or any product used in hair dyes, as well as growing hair. Two colors: "Light to Medium Brown" and "Dark Brown to Black."
